

# COMPANY PROFILE

 AZIZ & COMPANY LTD.  
*crossing the limits....*

# **WHO WE ARE**

Aziz & Company Limited (Azizco) is one of the oldest and the leading electro mechanical & trading firm in the country starting from the early 70's. Our success is driven by our people and their commitment to get results the right way-by operating responsibly, executing with excellence, applying innovative technologies and capturing new opportunities for profitable growth.

# **WHAT WE DO**

Today, Azizco has transformed into a multi-dimensional group with interests in elevators & escalators, air-conditioning (HVAC), building construction materials & tools, parking solutions, building repair & retrofitting, locomotives and oil & gas industry of Bangladesh. Azizco has become a trusted name in Bangladesh in all these industries by providing seamless customer oriented solutions and unmatched support. We have developed a divisional organization structure, with each division specializing into own business segments for better customer focus and providing best possible service to achieve customer satisfaction.

# **OUR PEOPLE**

Aziz & Company Ltd. employs more than 400 individuals across Bangladesh. Among them are 60 professional engineers, 35 technicians, 50 professional managers and more than 300 dedicated skilled and semi-skilled workers. Our experience workforce gives us a competitive edge over our competitors as we do our job professionally and execute it efficiently.

# OUR ACTIVITIES IN TERMS OF BUSINESS

## Elevator and Parking Division

### ELEVATORS & ESCALATOR

- SUPPLY, INSTALLATION, COMMISSIONING
- OF ELEVATORS AND ESCALATORS FOR COMMERCIAL AND INDUSTRIAL SECTOR
- OPERATION AND MAINTENANCE
- AFTER SALES SERVICE

OMEGA

autors

### MECHANICAL PARKING SOLUTION

- DESIGN, SUPPLY, INSTALLATION, COMMISSIONING OF BI DIRECTIONAL PARKING SYSTEM, VEHICLE STACKER, ROBOTIC PARKING, CAR LIFTS, ETC
- OPERATION AND MAINTENANCE
- AFTER SALES SERVICE

## HVAC Division

DESIGN, SUPPLY, INSTALLATION, COMMISSIONING, TESTING AND BALANCING OF CENTRAL AIR CONDITIONING SYSTEM (HVAC) FOR INDUSTRIAL AND COMMERCIAL SECTOR

- SOLE DISTRIBUTOR OF YORK (JCI)
- CHILLERS, AHU, FCU, COOLING TOWERS, PUMPS, PRECISION MACHINE, PIPES, INSULATION, CONTROL PANEL, CABLING, BMS, DUCTING, VALVES, HEAT EXCHANGER, HUMIDIFIER AND SO ON
- OPERATION AND MAINTENANCE
- AFTER SALES SERVICE

## Building Material Division

LOCAL BUSINESS PARTNER OF HILTI

- SUPPLY OF HILTI PRODUCTS AND SERVICES
- CONTRACTING AND ENGINEERING SUPPORT
- REPAIR AND MAINTENANCE SUPPORT
- AFTER SALES SERVICE

REPAIR AND RETROFITTING

- RETROFITTING CONTRACTOR
- CARBON FIBER SUPPLY AND INSTALLATION
- CONSTRUCTION CHEMICAL SUPPLIER

INDUSTRIAL AND COMMERCIAL FLOORING

- DISTRIBUTOR OF FLOWCRETE
- SUPPLY AND INSTALLATION OF INDUSRIAL AND COMMERCIAL FLOORING
- AFTER SALES SERVICE

DISTRIBUTR OF CONCRETE CANVAS

- DESIGN, SUPPLY & INSTALLATION OF GEOSYNTHETIC CEMENTIOUS COMPOSITE MATS (CONCRETE ON A ROLL) FOR SLOPE PROTECTION, BUND LINING, CULVERT LINING, DRAINAGE AND CANALS, DITCH LINING, LAGOON LINING, CONCRETE REMEDIATION, EMBANKMENT PROTECTION, PIPE PROTECTION, CABLE COVERING, VENT WALLS , ETC

## Locomotive Division

SUPPLY OF RAILWAYS LOCOMOTIVES AND SPARE PARTS

## ELEVATORS AND ESCALATORS

Azizco is the pioneer in the field of vertical transportation. We have supplied and installed more than 4000 elevators across the country and we are maintaining more than 2500 elevators in Bangladesh. This part of business is one of the oldest wings of the company dating back to the early 70s. We have earned and gained a market reputation as market leaders in this field of business. We have acquired a four step integrated approach to vertical transportation that includes civil and mechanical designing, installation, service maintenance and modernization. In line with the Company's commitment to greater customer care, an emergency service is available for all clients. In addition, personnel are regularly sent abroad for technical and management training.

ELEVATOR

PASSENGER  
ELEVATOR

HOSPITAL  
ELEVATOR

VILLA ELEVATOR

# TRANSPORTING PEOPLE TO THE NEXT LEVEL

DUMBWAITER

WHEEL CHAIR LIFT

ESCALATOR

MOVING WALKWAY

# CAR PARKING DIVISION

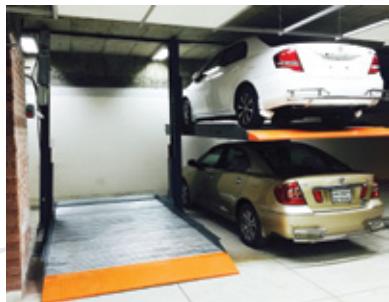

Aziz & Company Limited is the first ever company in Bangladesh to introduce elevated and stacked parking solutions for residential and commercial construction projects. Parking lots and parking decks usually have a finite amount of space available for vehicles. It may not be economically feasible to extend the boundaries of a parking lot or construct another parking deck. One viable solution to this parking problem is elevated and stacked parking. Traditional parking involves parking cars bumper-to-bumper in a regular parking structure, but we provide high-tech form of car parking solutions which uses hydraulic lifts and a significant amount of engineering skill to manage parking spaces more intelligently by stacking on each other. As we are increasingly facing space congestion scenarios in all construction sectors, intuitive car parking solutions are the only way to ensure proper space utilization in all structures to move towards an era of greener and intelligent architectural future. Being the pioneer in the Car Parking Solutions industry we are focused to develop this industry by providing seamless customer focused solutions and remarkable after sales services.

## CAR PARKING SOLUTIONS BRANDS THAT WE REPRESENT

## STACK PARKING | CAR STACKER

A system that really makes the most of it. The principal here is extremely simple: One entrance level turns up to three parking levels. Maximized operative and functional safety levels go hand in hand with a range of selectable options.

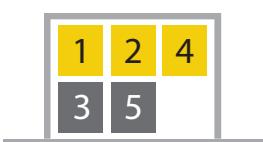

## PUZZLE PARKING BI DIRECTIONAL PARKING | LIFT & SLIDE

Who says that it is absolutely necessary to decide between stacking and moving together- this system easily integrates both options. This arrangement is extremely comfortable for the user as anyone can enter and exit at any time. If anything is in the way it is simply shifted to the side or lifted.

The vehicle on parking place 4 is requested.

The parking places along the entrance level are shifted to the left.

Parking place 4 is lowered down to the entrance level, the vehicle is now ready for exit.

# **BDP (BI-DIRECTIONAL PARKING) TOWER | WITH PLATFORMS**

It is a new type of parking system, vehicles are parked in parking levels with the aid of adjustable sliding carrier units. Vertical lift ensure the lifting and lowering of vehicles. Very suitable for commercial use.

Motsho Bhaban, Dhaka

Chittagong New Market

# **P-VRC/S-VRC (VERTICAL RECIPROCATING CONVEYOR)**

VRC is a vertical transportation lift moves car from one floor to another, it is available both in 4 post & scissor type, for 4 post it is available for both electric & hydraulic. Different finishing (Paint spray & galvanized) & waterproof treatments are available at customer's request.

- Totally customized
- Small order acceptable
- Remote control is optional
- Full safety features available as an option

Space-saving system technology in favor of the retention of green areas. As an alternative to street parking automatic garages reduce the traffic in search for a parking space. With innovative parking ideas CO<sub>2</sub> pollution can be decreased in inner cities.

Less area.  
Less traffic.  
Less CO<sub>2</sub>.  
More innovative parking ideas.
